SG1A

Approved For Release 2003/02/27 : CIA-RDP79-00999A000400010001-9

Picture in 

A where & what

a) country

b) purpose

c) nationality of inhabitants

d) what else do you

see on compound

e) internal floor plan

f) upstairs if he gets
that far

SG1A

B some questions as A
with same.

This is a summary of a
discussion with F.S.

Notes on initial responses

Ed First impression was maybe
from Frank

① 3-0 ^{zig-zag} stairway, to left
of front door

② Corridor ~~off~~ down the center
of the "L"

③ lights appear to be very
weak.

④ Roof is crushed stone
of which some green color.

[REDACTED] SG1A

2 long work benches
Ed has photographic equipment
Tub between upper floor
connecting

[REDACTED] SG1A

Few people, an although
structure seems to be finished.
Some question as to whether

[REDACTED] SG1
A

Complex A

#4 is. southeast corner of

SG1A

Boys are six in number
in garage, sloping roof
away from them

Road curves CC to #4

#4 is up from the main road
landscape is wild bushes
with thistles

*likely to be B or C, probably B
similar.*

Sat. night.

Friday about 6 got together
with Pat. Gave him number
of aces, two photo, street map
and topo. Got limited
responses. Few things right
by all appearances.

SG11

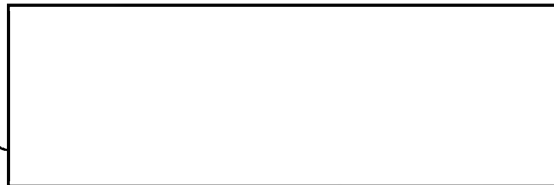

* I met pat 9:30 am Sat,
had second session which
produced more detail about what
had been completed but little
new information. Frank appears
little significant new info
appears until

Sunday morning
Fra

~~Third Floor~~ given to Pat

D₁

1 Pictures of people

SG1A

4 29 Jan 65, what happen

5 Two more specific dates with to given

D₂

1. Better define the first floor room
across from the cold storage.

2. more pictures of people

3 13-20 Oct 1971 what happen, nationality

4 12 Oct 1967

5 Central heating location

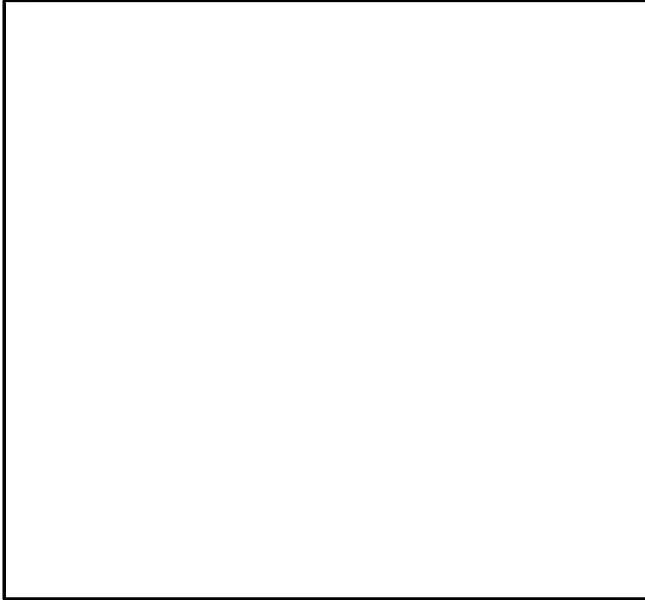

6 writing

Pat said the two buildings
the two story building with
"eagle on" is the U.S Embassy

SGFOIA3

little map locating A, B, C

SGFOIA3

Notes from tapes Sat. afternoon
 begins with B
 evening Frank, P² SG1A

describes kitchen

stairs, landings green there

are landings

Dark brown tile floor

building grew like topsy
 all sort of animated additions
 finds a large room

Frank tell him it was a gambling

gues about 3000 above

describes the ^{ethnic} division of the town

SG1A

missed much of the description

of building around E

building closest to street & talked
has computers on second floor &
plate glass windows & draft

^{US Embassy}
initially locates building in N.W.
section of town incorrectly. Wrought iron
fence around, no elevation

describes across the road to the

embassy

Gives feedback on where building

#2 is across the road & north of A.

got the picture routine on

tape

Jan Leo plans for SRI

experiments.

Lee Race - ~~US Army~~

Consultant with

SG1I

(1) Swann

(2) ~~Price~~, Elgin, Cole, ~~Hammond~~

Price will be run in separate
experiments here in D.C.

SGFOIA3

20 minute drive of Mal

Objections

1. Establish ~~whether~~ personal relationship factor
2. Is this a real time effect
3. Effect of shielding, in particular, can we get through electromagnetic shielding
4. Burst transmitted, can we set up the EEG to detect these burst transmissions
5. Go to address without being in the city.
follow people into buildings

A21. Dist. Study

EXP. 1 ^{18 January 78} with her

SGFOIA3

and will drive to place
within 20 minutes of motel.

Procd. will be handled by
myself and SRI

a) photography, motel
room number only and
timing

i) leave motel
ii) activity of interest.
to Sunnyvale

Get an room nearby or
do from SRI.

Subjects at SRI will be given
photo of Lee

will be given photo

SG1I of his traveling companion

ILLEGIB

Experimented 1 &

SGFOIA3

SG11

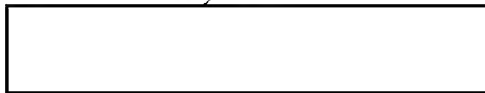

*after Sunnyvale meeting
will call give time it
& time for later
meeting*

1. location
2. activity, purpose
3. Number of person involved
4. Describe surroundings

Return to SRI and meet

Salary Review

Day 2 Monday.
~~Indoctrination~~
may Orientation of SRI, procedure
after run through paramount
screening.

SG11

Hal, Russ.

Day 3.

To San Diego with

subjects in morning.

1) travel and familiarization

2) experiment in

4 Feb, Tuesday in a private home

2 hours in morning, 2 hours in afternoon

2) morning to follow see

without any specific input

1) In afternoon drive subjects
by and show house repeat

a)

*placement of subjects to
be decided*

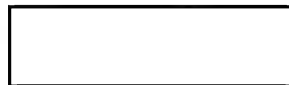

Day + Wed

Review, analysis plan
without SRI.

* Thursday S.R.I

Remote viewing in rf
shielded room with

subjects and

SG11

* Friday

rf question must be
resolved,

Saturday review
Sunday Review.

10 Monday

Rerun experiment #1
with Lee in morning

In afternoon show them
largest area.

11 Feb Day 8

1 Morning show building on map
and describe the building

SG1A

day 9

last transmission

day 10

SG1A

Take off to foreign country

day 4 review with SRI
the results.
